CARVING
Collection 2023

about us

MARBITO has honed techniques that allow its vitrified tiles to be the most durable and appealing on the market. Innovative techniques and advanced Italian equipment create outstanding hue constancy, ensuring brilliant hues and minimal upkeep throughout the year. MARBITO obtains advanced equipment from world leaders in vitrified technology such as Sacmi, Barbieri, and Itaca, Italy. Our tiles are of the highest calibre, have unique patterns, and come in a wide range of colors.

Carving

carving tiles will add a touch of refinement and beauty to any interior. Carving tiles are one-of-a-kind products in which veins are carved into the tile to add opulence to a space. The carving effect not only gives depth to the ground but also offers a gleaming impression.

Thickness :

 **9MM**

With a natural stone design, the carving Effect captures the essence of nature. This carving tile collection has durability and strength due to its strong **9mm** thickness.
